Company Photos/Company Environment

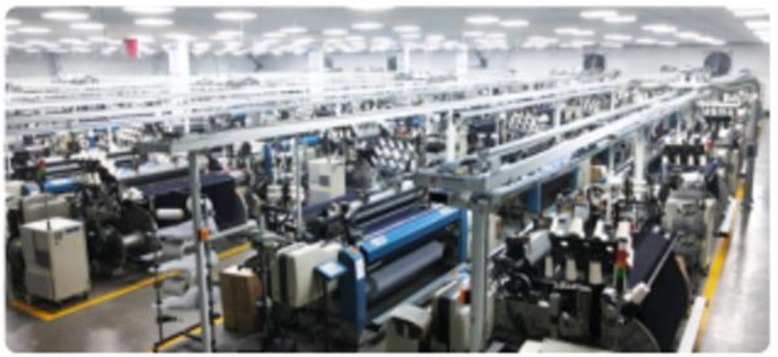

Professionally Self-Developed Factory

An integrated industry and trade enterprise combining R&D, sales, and manufacturing, with strong in-house research and development capabilities.

Chloe.Song@meetchina365.com | Thomas.Richardson@meetchina365.com

Why Choose Us.

The company was established in 1983 and has been operating for 43 years. It is a manufacturing enterprise that encompasses three major industries: smart home appliances (including pet smart products, air purifiers, and the Ventilation Systems), denim fabrics, and automotive parts injection molding.

Factory

Factory Cover 45000 square meters
Which is one of the largest manufacturer of pet appliances in East China.

R&D Center

R&D cycle: 3-5 months
(New products can be launched in 75 days)

Injection Workshop

15000T of injection molding Capacity
Max 1600T

ZM 02

Intelligent cat litter box

Say goodbye to traditional cleaning and embrace the smart pet care era!Large capacity & hassle-free—no worries during trips.
Fully automatic cleaning for a truly hands-free experience.

Product Highlights

FULLY AUTOMATIC SMART AND HASSLE-FREE
Multiple Modes, Smart Control
Automatic Litter Scooping for Hands-Free Convenience

80L EXTRA-LARGE CAPACITY
XXL size, ideal for large cats.
15L large capacity waste compartment

CLOSED DESIGN TO PREVENT ODORS
Closed waste compartment reduces odor spread and inhibits bacterial growth

Specification

Product Dimensions	543*516*527mm
Materials	ABS,PP, Stainless Steel
Rated Voltage	DC 12V 2A
Product Capacity	80L
Waste Collection Chamber Capacity	15 L
Drum Size / Drum Opening Size	Diameter 456.2mm X 479mm
Cat Entrance Height from the Floor	272mm
Network Setup Method	Wi-Fi 2.4Ghz
Quantity per Container	20GP: 117PCS 40GP: 250PCS 40HQ: 308PCS

Product Functions

1.PET DETECTION
Precision sensors detect the cat's entry and exit; cleaning stops when the cat enters the chamber and automatically starts a few seconds after the cat leaves (ensuring the cat's safety).

2.CLEANING DETECTION
Hall sensor controls the drum operation by detecting the start, stop, and balance positions.

3.FULL CHAMBER ALERT
The waste collection chamber is equipped with a full chamber alert function, promptly notifying you when it's full to ensure timely cleaning and better health care.

4.ERROR ALERT
Power On/Off and Device Error Alerts
Notifications are provided via buzzer and app alerts.

5.SMART LOGGING
Provides records of litter box usage, litter cleaning, litter refilling, and waste chamber cleaning.

6.SMART FEATURES
APP Remote Control (Tuya), Child Lock, One-Button Litter Change, One-Button Reset

CL-01 Smart Tipping Cat Litter Box

OPEN DESIGN & SPACIOUS INTERIOR
SAFE & NO PINCHING

Open design for more stretching, suitable for cats of all sizes

Chloe.Song@meetchina365.com |
Thomas.Richardson@meetchina365.com

LB-01

Smart Tipping Cat Litter Box

Fully automatic smart cat litter box, hands-free operation, odor removal and antibacterial, making cat toiletting more worry-free.

Product Highlights

Two working modes
Manual mode and Automatic mode

Multiple anti-pinch protections

The drum stops rotating when a cat steps inside

Secondary anti-pinch protection similar to a car window safety mechanism (motor overcurrent protection)

Three pairs of infrared sensors in the waste bin to prevent pinching

One-button waste bin emptying
Closed waste compartment reduces odor spread
Inhibits bacterial growth

Automatic waste cleaning
9.2L large waste compartment
Hands-free, reduces odors

Multiple sensors sensors
Ultrasonic Sensor: Detects the presence or distance of objects by emitting ultrasonic waves and receiving reflected signals.
IR PIR Sensor: Senses changes in infrared radiation emitted by objects to detect dynamic heat sources (cats).
