MEETCHINA365

Your Trusted Partner in Innovative Pet Products from China

MEETCHINA365

FROM MARKET NEEDS TO **BETTER PET PRODUCTS**

Global Manufacturing Power for Healthier Pets and Happier Families

Since 2011

Since 2011, our partner factory has specialized in R&D and smart sensing & control technology, building a pet-focused technology ecosystem covering health, training, safety, and entertainment.

Committed to quality, we use proprietary technology and professional production to deliver safe, efficient and smart solutions for pet families worldwide.

MEETCHINA365

FROM MARKETS METS TO **BETTER PET PRODUCTS**

Global Manufacturing Power for Healthier Pets and Happier Families

Advanced Production System

From Components to Finished Products – Quality You Can Trust

Closed-Loop Production Process
Ensure stable capacity and on-time delivery

Strict Quality Control
Multiple inspection points in every step

Efficient Manufacturing
Professional equipment and skilled workforce

Safe & Reliable Products
Bring safer, smarter and happier lives to pets

Production Department

Component processing and preparation with high precision and efficiency.

Quality Department

Strict quality inspection to ensure every product meets high standards.

Engineering Department

Independent R&D and engineering support for continuous innovation and customization.

Post-Welding Lines

Precision welding to ensure durability and safety.

Assembly Lines

Skilled assembly to ensure consistent quality and performance.

Packaging Lines

Safe and attractive packaging tailored to your market needs.

Laser Engraving Lines

Custom logo and design options for OEM/ODM projects.

Sewing Lines

High-quality sewing for premium pet products.

Strong R&D Team

Innovation for Smarter and Safer Pet Products

We focus on smart sensing and control technology, continuously innovating to create better pet products for healthier pets and happier families.

Global Manufacturing Power for Healthier Pets and Happier Families

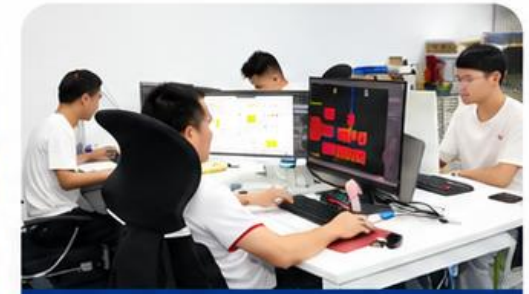

UI Designers
Create user-friendly and modern product experiences

ID Designers
Turn innovative ideas into practical and attractive designs

Structural Engineers
Ensure reliable structure and optimal performance

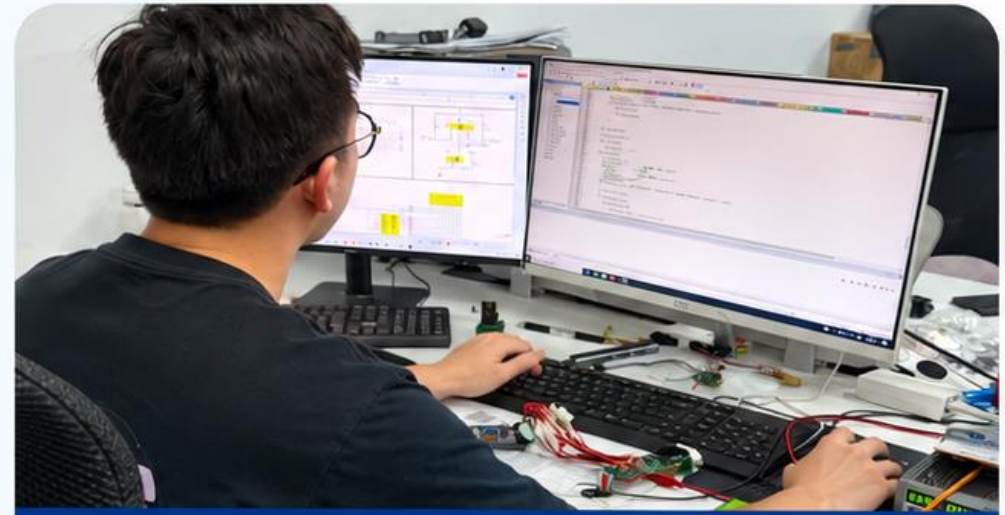

Hardware Engineers
Develop core hardware and smart sensing solutions

Innovation-Driven R&D
Building Core Competitiveness in Smart Pet Products

13
Professional R&D Members
A dedicated and experienced team focused on pet product innovation

5–10
Years of Industry Expertise per Member
Deep industry knowledge to deliver market-leading solutions

We invest heavily in R&D every year, focusing on smart pet technology breakthroughs — from hardware optimization to software innovation. Our continuous product evolution and innovative solutions ensure we meet industry demands and create greater value for global partners.

Software Engineers
Develop smart algorithms and control systems to bring more intelligent and safer pet products

Self-Owned Factory

From component processing to finished product delivery, we maintain a closed-loop production process to ensure capacity and on-time delivery.

Six Dedicated Zones

enabling precise storage and efficient material management

There are six specialized warehouses ensure systematic control from receiving to dispatch, safeguarding quality and streamlining flow.

Chloe.Song@meetchina365.com | Thomas.Richardson@meetchina365.com

Production Machinery: Automated & High-Precision

Equipped with automatic screw feeders, IC programmers, pneumatic fixtures, ultrasonic welders, laser cutters, and automated sewing machines to enhance efficiency, ensure precision, and support mass production.

8 kinds of
Production Machines

- Automatic Screw Feeders
- IC Programmers
- Pneumatic Fixture Machines
- Ultrasonic Welding Machines
- Laser Cutting Machines
- Automatic Sewing Machines
- Automatic Laser Webbing Cutters

Chloe.Song@meetchina365.com | Thomas.Richardson@meetchina365.com

Testing Equipment: Full-Scenario Validation • Strict Quality Control

We utilize environmental testers, mechanical testers, along with digital storage oscilloscopes, leak testers, and abrasion testers to comprehensively validate performance, structural strength, and environmental adaptability.

12+

Testing Equipment

- Aging Test Rack
- Digital Storage Oscilloscope
- Temp/Humidity Test Chamber
- Insertion/Extraction Force Tester
- Button Durability Tester
- Salt Spray Test Chamber
- Simulated Transport Vibration Table
- Tensile Testing Machine
- Wire Flex Tester
- Abrasion Tester
- Leak Tester

Chloe.Song@meetchina365.com | Thomas.Richardson@meetchina365.com

DIY Equipment: Personalized Customization • Unique Empowerment

Equipped with laser engravers, embroidery machines, and UV printers, we offer custom design processing for logos, patterns, and textures on pet products—enabling unique product differentiation and adaptability to diverse market needs.

3 kinds of Customization Machines

Laser Engraver

UV Printer

Embroidery Machine

Pet Fence Series

Precision Protection for Multiple Scenarios, Ensuring Pet Safety

- Wired Fence: Uses physical/signal boundaries. Alerts when pets approach—ideal for homes/yards.
- Wireless Fence: No installation, flexible zones. Instant escape alert—balances freedom and safety.
- GPS Fence: GPS remote zoning, corrects escapes. Wide outdoor coverage, prevents loss.
- UWB Fence: Ultra-wideband precision, millimeter accuracy. Designed for detailed indoor supervision.

Ultrasonic Dog Trainer

All-in-One Solution:
Repel, Train, Illuminate, and Alert in Any Scenario

Repels
Helps stop aggressive or stray dogs with ultrasonic sound.

Training
Reduces excessive barking and cultivates quiet behavior.

Illuminates
Built-in bright LED light for night walks and outdoor use.

Safety Protection
Quickly disperses potential threats and keeps you and your dog safe.

Anti-False Trigger Bark Collar

New Dual Trigger System

—— Stops Barking Accurately with Minimal Disturbance

Intelligent Bark Control

Dual trigger system distinguishes real barking from other sounds, reducing false triggers.

Gentle & Effective Correction

Provides safe and humane correction to stop excessive barking.

Builds Better Behavior

Reinforces quiet commands and helps dogs develop good habits.

Stress-Free Living

Minimizes disturbances for you, your family and your community.

Remote Dog Trainer

Pairs Instantly, Trains Remotely: Correct Unwanted Habits with Precision

Remote Control
Stops bad behavior instantly and effectively.

Adjustable Modes
Sound, vibration, shock and ultrasonic — tailored to different training needs.

Improves Obedience
Helps correct barking, biting, jumping and other unwanted habits.

Safe and Humane
Multiple safety levels designed for effective and responsible training.

Anti-Loss & Tracking Series

Keep Pets Safer, Families Closer

From everyday tracking to professional custom solutions, we provide **one-stop anti-loss services** to meet all your needs — from simple trials to in-depth care.

Real-Time Tracking
Accurate GPS positioning with escape alerts.

Anti-Loss Protection
Helps quickly locate pets and reduce the risk of getting lost.

Health Monitoring
Track activity and behavior for a healthier life.

Smart App Control
Easy setup and real-time management via mobile app.

GLOBAL MARKET PRESENCE

Strengthening Core Markets, Expanding Globally

Europe (incl. UK, 26%)

Continental Europe (18%) + UK (8%). Expanded via regional strategy and key hub focus.

North America (58%)

Core market. Strengthened through exhibitions, product innovation, and channel partnerships.

South America (5%) & Other Regions (6%)

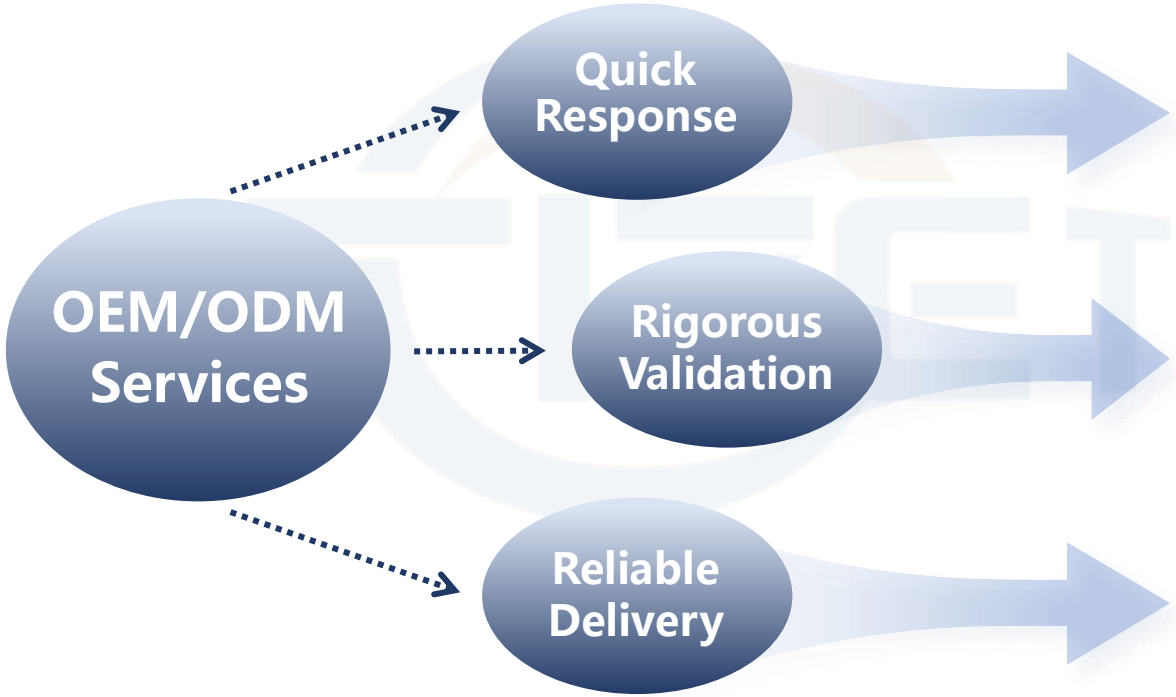

Emerging and niche markets. Demand driven by exhibitions and adaptive products.

Australia (5%)

Key Asia-Pacific presence. Growing through targeted market development.

CUSTOMIZATION SERVICES

TIZE provide end-to-end customized pet products
through in-depth design and closed-loop quality control

Accurate Product Needs Assessment

Through in-depth communication, we confirm functional logic, finalize appearance, and evaluate technical and cost feasibility.

Dual Prototype Validation

3D prototyping for precise size verification + functional testing to ensure performance stability.

Full-Chain Quality Control

Precise mold development, pre-production risk assessment, and standardized mass production — every step is controlled to ensure quality and on-time delivery.

EXPERT TEAM

With a dedicated R&D team experienced in pet product customization, we offer **one-stop solutions from concept to product** — covering appearance, function, and packaging tailored to your brand.

CUSTOM PROJECT PROCESS BREAKDOWN

Requirement Confirmation & Feasibility Assessment

Client requirements →
TIZE evaluates feasibility.

5-10 Days

5-7 Days

3D Prototyping

Create 3D models to verify dimensions and proportions.

Structure & Hardware/ Software Design

Complete internal structure, hardware, and software design.

10-30 Days

5-7 Days

Functional Prototype Validation

Build working samples for performance and interaction tests.

Mold Development

Initiates mold opening and performs precision machining on the mold.

30-35 Days

15-20 Days

Trial Production & Testing

Small-batch trial run for quality control checks.

First Batch of Mass Production

Scale manufacturing: ensured delivery & consistency

BUSINESS PHILOSOPHY

Approach:
Clear Vision, Sustainable Growth

Clarity • Purpose • Growth:

Vision: A global benchmark in stability and innovation for the pet and consumer electronics industry.

Mission: To deliver high-quality products and services worldwide through strong R&D and production, ensuring real value.

Value: Building a cycle of empowerment and shared success among our company, employees, customers, and society.

Vision — To be an excellent company with healthy development

Mission — Provide high-quality products and services to customers and market

Value — Create win-win situations for the clients, employees, company, and the society

Factory Core Strengths:

Full-Chain Capabilities for Solid Partnerships

Independent R&D Driving Continuous Innovation

Our integrated hardware-software teams offer custom solutions. Dozens of new products are developed annually, meeting diverse market needs with reliable and innovative designs.

Quality Assurance Meeting International Standards

Advanced manufacturing and precision testing ensure zero-defect output. All products comply with global standards and multiple certifications.

Efficient Production Ensuring Fast Delivery

Equipped with automated lines and professional teams. ISO9001 and BSCI certified. We ensure high-speed, high-quality production to shorten lead times.

Customized Service Responding to Client Needs

Dedicated teams for international business, order tracking, and marketing support. We provide flexible, tailored solutions quickly.
